PROJECT RUBY USER MANUAL

Dixon, Brannon T

POINT PARK UNIVERSITY ADVANCED PROGRAMMING

TABLE OF CONTENTS

OVERVIEW

Project Ruby was created to be an interactive web page that features an interesting dog name Ruby full of tricks.

<u>HOMEPAGE</u>

Upon navigating to the website below you will be navigated to the homepage of PROJECT RUBY.
http://btdixon.it.pointpark.edu/PROJECTRUBY/

You will see various directions for interactions of the website.

SPIN TRICK

There are two options to be reach this portion of the page. You can either click the text "Spin Trick" in the Nav bar or just scroll down the page. To interact with this portion of the site you will arrange your pointer arrow with your mouse onto the button "Rotate Right" and click- which will rotate the image of Ruby clockwise. Additionally, to rotate the image to the left or counter clock-wise, you will arrange your mouse pointer on the "Rotate Left" button and click.

FACTS ABOUT RUBY

Directly below Ruby's Spin Trick on the site there are three available interactive features to click on to get learn more about Ruby. Ruby's Hobbies, Ruby's Favorite Foods, and Ruby Hates.

RUBY'S MAGIC TRICK

This part of the sight interact when you hover your mouse over the image of Ruby. When you hover your mouse arrow over the image of Ruby she will disappear. When you remove the mouse arrow she will reappear. No need to click anywhere where.

SPEAK

This portion of the site you can click in the text box and type whatever you want. The text you type will appear below. You can refresh to remove what you typed.

SMILEY FACE

At the bottom of the page you will see a giant smiley face. The face happens to be interactive! To interact with the smiley face you will refresh the page. Every time you refresh the page the eyebrows on the page will refresh.
